

RETHINKING FOOD

**SKAGEN
SALMON**
BY PETER NIEMANN

QUALITY IS OUR THING

We're passionate about what makes a product special and how it performs in everyday use. That's also what drives us to bring only exceptional food products to Germany and Austria – not just as commodities, but as items that offer real added value for professional kitchens. And because we're part of that world ourselves, we understand what really matters. That's why we place a very high priority on process reliability and dependability – from consultation through delivery.

SUSTAINABILITY?

IT'S PART OF WHO WE ARE.

A deep awareness of resources and our environment is second nature to us – both morally and from a business perspective. We strive to keep our carbon footprint low, always consider transportation and processing, and work with our partners to find meaningful solutions – not just for today, but also for tomorrow.

OUR PROMISE

We stand behind what we do. With passion, expertise, and a keen eye for fantastic products. At the same time, we stay grounded, think practically, and act responsibly. Quality, sustainability, and genuine partnership are at the core of what we do.

Svenja Renken & Peter Niemann

„PETER NIEMANN'S COMMITMENT TO QUALITY IS NON-NEGOTIABLE. HE STICKS TO HIS PRINCIPLES – IN TERMS OF TASTE, DESIGN, AND BUSINESS.“

— Thomas Schreiner, Vice President (DACH), Laurent-Perrier

“SVENJA RENKEN IS A PERFECT EXAMPLE OF HOW A KEEN EYE FOR DETAIL, A POSITIVE ATTITUDE, AND INITIATIVE FORM THE FOUNDATION FOR EXCELLENT CUSTOMER SERVICE.”

— Gabriele Heins, Chefredakteurin, Der Feinschmecker

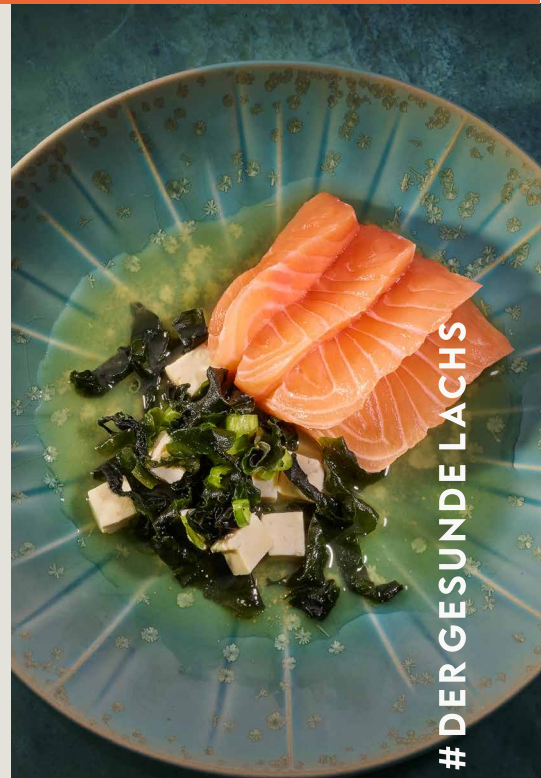

FOOD WITH CHARACTER, QUALITY WITH RESPONSIBILITY.

Uncompromising quality, transparent sourcing, and responsible business practices. We work exclusively with producers whom we know personally and who share our values – companies and manufacturers who understand that sustainability reflects an awareness that our resources are finite and that the way we conduct business has consequences.

Every product we add to our portfolio is carefully evaluated. We set the bar high because that's what we're used to ourselves:

- **GUARANTEED CONSISTENTLY HIGH QUALITY**
- **ABSOLUTE FRESHNESS**
- **TRANSPARENT PROCESSES**
- **ON-TIME DELIVERIES FOR GREATER PREDICTABILITY**
- **FAIR PRICING**
- **DOCUMENTED CO₂-FOOTPRINT**

The result is a product line that we can represent with a clear conscience and that truly stands out. In the end, only one thing matters to us: products and producers that we ourselves are absolutely convinced of.
